BUSINESS PROPOSAL
2018-19

Introduction

Delta Educational Systems Pvt. Ltd.' is an ultimate solution for all the students who want to acquire computer knowledge. It is excellent for IT students to get both Software & Hardware education. By 'EDUCATION' we don't mean only the bookish knowledge but a mixture of both theoretical as well as practical knowledge also that can be applied in our day to day lives. We aim towards an overall development of a student that comes from books, practical know-how and participating in extra-curricular activities.

'Delta Educational Systems Pvt. Ltd.' is surrounded with the industry's most talented people having vast experience in IT sector. Its management team is well qualified and competent enough to run the entire process on its own. With the continually evaluated performance and delivery of commendable results we have been able to maintain our standards. Students and their parents are completely satisfied and delighted to be a part of 'Delta Educational Systems Pvt. Ltd'.

We firmly believe in doing the thing that we are best at, thus we choose to be in Education Industry. 'Delta Educational Systems Pvt. Ltd.' was started in April 2009 by a team of highly qualified professionals having experience of more than 10 years in the same field. We have been successfully educating more than 10000 students in our well equipped campuses with world class infrastructure; most of them are well employed in Private and Govt Sectors at present. With the holistic approach of a successful and gratifying performance, we have been rooted soundly in this industry for more than a decade, gaining experience, setting up bench marks and making careers for students. We focus mainly on rural areas where students come from middle class families. We provide education at affordable fees. Quality of education is always maintained which is evident by the number of enrolments. Our extensive range of courses helps the students to choose the best career for themselves. After evaluating a student's educational background, marks etc, our consultants counsel and suggest each student about the courses they should take as per their capabilities. We aspire to guide the students in the best possible manner to achieve admirable outcomes.

We motivate our students to strive for excellence so that even in our absence they have desire to learn and continue with their study programs. 'Delta Educational Systems Pvt. Ltd.' provides THE BEST EDUCATION.

Delta Education Enhance my Knowledge and build up my Confidence that I can do much better in IT sector now.
- Parasnath Sahu (Student)

I have totally blanked Knowledge before joining this Institute but now I Can do So many things on Computer.
- Kaushalya Kumari (Student)

Thank you So much Delta Education for giving us the best Education, Confidence, ethics and Values.
- Ajay Gurung (Student)

Our Aim

'Delta Educational Systems Pvt. Ltd.' aims to train their students to respond competently and confidently to the economic, social and organizational challenges arising from a rapidly advancing technology, a shifting economic base and a global market place to enhance the capabilities of organization through research and consultancy. The courses are specially designed to develop and enhance the basic IT skills and abilities of students So that they can be equipped with appropriate tools of modern computing techniques for better and speedy decision making.

We believe our programs match with the highest academic standards that the companies and other organizations want. Our strategy for achieving teaching excellence is through an industry-led approach combined with state-of-the art knowledge of staff. 'Delta Educational Systems Pvt. Ltd.' aims to provide ultra modern education facilities to all the sections of the society, so that the disparity of facility of education gets over.

Our Vision

As we are in the 21st century, the entire world around us is undergoing a metamorphosis. The unsteady global economy is not only creating complexities, but also a new set of international relationship leading to enmity and abnormal economic compulsions. What was modern yesterday is suddenly obsolete today. In fact what the industry needs today, are the people who can take control and make things happen rather than simply follow others.

Our vision is to achieve excellence through knowledge, integrity and innovation. The students are nurtured not only in conceptual, technical and managerial skills but also in values that accept change, diversities, plurality in thoughts and ideas that respect individuals. Our culture goes beyond normal learning process. It is here at 'Delta Educational Systems Pvt. Ltd.' that the students with the help of faculty build hopes and aspiration, nurture dreams and lay the foundation stone on which stand the monuments of their careers.

The system of training and education practised by 'Delta Educational Systems Pvt. Ltd.' ensures that it develops the students who are leaders in every sense and can discharge their duties in the most exemplary manner. Our vision of academic excellence and social responsibility will give them a special place in society as well as a new orientation in the corporate world. God's grace and your trust in us can help us to fulfil our vision.

Reasons to Choose Delta Educational Systems Pvt. Ltd.

We live in a world of increasingly complex and rapidly changing technology and we cannot afford to spend a lot of our time keeping abreast of these changes. 'Delta Educational Systems Pvt. Ltd.' provides high quality training in all programs in the most optimized period of time.

Pioneer in New Technologies

Quality Hands-on, Instructor-LED Computer Training.

Friendly Learning Environment with Positive Attitude

Life Time Free Technical Support

Provides Job oriented courses in IT at an affordable price.

Provides Job Opportunities all over India.

Why Should A Centre Take Franchise

The franchisee-entrepreneur starts a business with a well-known, established concept of having greater success in business. Since the franchisor's business concept is already accepted by the market and there are existing consumers for it, the execution of the concept and delivering the service becomes easier. The franchisee hence runs the business by applying the franchisor's formula to achieve the consistent results. However, the franchisee is not alone for, among other services, the franchisor would provide advisory services to the franchisee. Franchisor benefits from these agreements because they allow companies to expand much more quickly than they could otherwise. A lack of funds and workers can cause a company to grow slowly. However, through franchising a company invests very little capital or labour, since the franchisee supplies both.

Benefits of Franchise

If you have heard about franchising and are wondering what the benefits might be for your business, here are lots of good reasons for franchising your business

- All India valid certification.
- Guidance to increase Admission.
- A complete technical and marketing strategy.
- Online Videos and Tutorial Updates.

From the Desk of Chairperson

Today skill development has become the most important factor to evaluate the development and the quality of service in the country. For this India needs massive strength of skilled people in various fields. Our country is good at service sector and has been getting handsome revenue from service sector but that has been benefiting the elite class of the country only. Actually we need to work and involve the larger group also which is not the part of the service sector and has been totally cut off from the development process. Hence, we have stepped into the programs which are trying to uplift the ignored part of the society so that as a team we can strengthen and empower our country.

We have started it and we believe we can do it. Come on youths; join your hands with us. Unite and be a part or our organization to make our country economically stronger.

SHAHLA PARVEEN
(Chairperson)

From the Desk of Managing Director

We at DESPL are continuously striving for the development of weaker section of society to earn their livelihood with the help of skill development programs at our premises. We are not only dependent upon the government to help the society. We have our own autonomous program in DESPL with different skill development programs at minimum cost.

We at delta educational systems Pvt. Ltd create leaders of tomorrow. Our vision is to develop very good environment in educational work place.

We are continuously searching and evaluating new ideas on the skill development programs which will help the youth of weaker class to enhance their skill in a particular domain and find their livelihood. We believe that this system will evoke one day and society will grow up. The development and growth of the society will make India rise and attain higher grounds.

ATIKUR RAHMAN
(Managing Director)

From the Desk of National Trainer (English Language)

As we know that we live in a world of complexity. In rapidly changing world, the progress or success of an Individual is judged by his/her skill and knowledge. In today's era E.Q. and Communication skill play a vital role. It is said, "Language wins the hearts and winning the hearts means, winning the world." The corporate world is different from what we speak in day-to-day Life. Many Times students are rejected on account of their personality. And it is only due to the lack of self management.

Thus we are pleased to Introduce DESPL 'PDP' skill development programs. This is a newly designed course by our team to enhance fluency and personality.

DESPL is an organisation with a goal to integrate students who don't get chance to attend skill development & PDP Programs.

Hence, DESPL welcome you all. Come join us and feel the difference.

S. A. NAQUIBI
(National Trainer of
English Language)
